

## Dr. Lucy Shah DDS

To be able to provide dental care is a privilege, and I am truly grateful for the opportunities I have had during my 17 years of dental career that has allowed me to make a difference in the quality of life of my patients. My experience as a private practice owner has also given me an opportunity to grow beyond clinical dentistry. It has helped me develop management and leadership skills by giving me opportunities to enhance my interpersonal, communication, critical thinking, and organizational skills.
